RAG DIABETES

A Newsletter from: [WWW.RAGDIABETES.ORG](http://WWW.RAGDIABETES.ORG)

Dear Rotarians

I write you to encourage you to make the clubs in your district aware of World Diabetes Day, 14 November.

The diabetes epidemic soon reaches 500 million people in every corner of the world. No country is exempt. This year's push is blindness prevention. Most are unaware that diabetes is a leading cause of blindness and preventable. Help us spread the word

I include a link which has three posters in English, French, and Spanish as appropriate for you to attach to your newsletter or send to your club presidents to increase diabetes awareness this 14 November. Thanks for your support
